José Ignacio, Uruguay

The former sleepy fishing village turned bohemian beach escape has become one of South America's chicest new destinations thanks in part to the recently opened **VIK retreats**. The VIK trio of hotels pair red-hot contemporary art, cutting-edge design, and architecture with a glamorous setting. Estancia Vik is set on a 4,000-acre ranch, while Playa Vik's stunning, modernist hotel overlooks the Atlantic. Its newest hotel, Bahia Vik, is right next door to Playa and opens this summer with 11 unique bungalows nestled in the dunes. Plus, the new beachfront restaurant La Susana serves up Uruguayan delights to the jet-set crowd.
