➔ **Perched on the José Ignacio peninsula** on Uruguay's coastline, The Sculpture building at the Playa Vik José Ignacio resort features a roof and lateral walls made from double-curved titanium panels. The entrance to the building is a two-story curved and inclined glass facade with a sculpted bronze door created by internationally renowned Uruguayan artist Pablo Atchugarry. Facing west with views across the Atlantic Ocean, visitors can watch the sunset from any of the resort's exclusive buildings.
