PLAYA VIK JOSE IGNACIO

Combining stunning eco-friendly architecture, an amazing art collection, and a beautiful beachfront location in Uruguay, Playa Vik has a lot to offer for a 10-room boutique hotel. The modernist design by architect Carlos Ott is designed to blend in with the landscape while maximizing the views. Sculpture and art by artist and architects such as James Turrell, Anselm Keifer, and Zaha Hadid grace the property. Guests can take private polo lessons, surf, sample Chilean wine, and enjoy beachside bonfires.
