Photograph of the week: Playa Vik Jose Ignacio

This week's image is of the pool at [Playa Vik Jose Ignacio](#). It is a 75-foot cantilevered pool of Uruguayan black absolute nero granite with a fibre optic lit celestial map of the southern hemisphere that sits amidst the Lapacho, stretching out beyond the limit of the terrace and cantilevering 32 feet over the beach garden below.

Thank you to [Playa Vik Jose Ignacio](#) for permission to re-produce the image.
