#### Plush Punta del Este

This season, the owners of the gorgeous Estancia Vik, located on 4,000 acres of land in José Ignacio, Uruguay (20 miles north of Punta del Este), debut its fabulous beachfront sister property, **Playa Vik**. Designed by internationally acclaimed architect Carlos Ott, the hotel has just two large suites (in the main house) and six small two- and three-bedroom homes (*casas*). Besides majestic views of José Ignacio's coastline, the compound boasts an important collection of international and South American art, including works from James Turrell, Zaha Hadid and Anselm Kiefer.
