Estancia Vik and Playa Vik, Uruguay

The Daglio Suite at the 4,000-acre Estancia Vik is fitted with a striking beechwood tub carved by a local Uruguayan boat-maker. Some guests have been so smitten that they've commissioned tubs to bring home. Separated from the bedroom by an opaque door, the bathroom feels serene, with views of the Arroyo River and Jose Ignacio Lake, which meet the southern Atlantic a mile away. The tub's counterpart can be found nearby, in the Casa Mar Suite at seaside Playa Vik.
